I know I sound like an idiot, but...

Deep, deep in the depths of sleep...

SANDA

Under-neath the cliff, instead of an abyss as I thought ...

My dream, there was only snow on the ground.

That's when I knew for sure.

It must be very hard for you with that wound in your arm.

This rope is made of speac -ially woven piano wire.

I'll tear off your right hand to settle this.

...

...Is getting cold?

The rope ...

...What the hell is this?

Santa Claus ...

FWSH

My normal body temp -erature should be no higher than 30 degress.

I've never measured it extactly, but...

I can feel my body temperature drop every now and then.

Seems the more I excercise or exert myself, the lower my body temper -ature gets.

The colder, the better

I'm Santa!

COUGH

ケホッゴホ

COUGH

I've never heard of that... What's the principle behind such constitution...

When a substance is extremely cold, the air around it also cools, causing water vapor to form.

Here's a simple chemistry tidbit.

...or should I say, I'm a dry ice human -oid!

It's smoke!

Posion -ous gas?

What's this?

!?

Don't be scared!

It's not poisonous gas or smoke, it's just vapor.

I can pass through this dis-advantage...

Well, some families had it until their kids were 5 years old! You ever head of Santa Claus?

We don't get to experience much of that event.

Makes me miss Christmas!

Fuuuuu

Santa Claus would get scared and ran away.

...And unsafe.

This country became completely poor...

We're going to get what we deserve on our own.

The time for beg -ing for presents is over.

I'd rather be a cowardly old man if I were here.

ビバあっ SPLOSH

Gugh...

What are you going to do if you lose here!?

Mitsuo Marukawa!

ズ"ズ"ズ!!...

I got what I wanted!

I'll do things my own way... To survive...

I've always pretended there's no Santa Claus...

Stealing...

Kidnapping...

Whatever it took.

I win, right?

From the tug of war?

Here... Your glasses

Glad they're safe
